

NOBLE COUNTY REMC

Rider Co-op Solar Program (SFGEN)

Charge Type 73 – Non Demand

Rate Classes:

RS, AE, GS, DG-RS-1

CORPORATE COMMITMENT

Energy needs for members voluntarily participating in the Wabash Valley Power Association Co-op Solar program will be supplied from the environmentally-preferred source of solar power. Currently that source has a higher cost than most other sources of power. The Co-op Solar Program Rider currently reflects the higher upfront cost of solar power compared to other sources of electricity.

It is our hope that as members choose alternative solar power, additional investments will be made in environmentally-friendly generation.

AVAILABILITY

Available to Cooperative members in all territory served by the Cooperative, subject to the Cooperative's Service Rules and Regulations.

APPLICABILITY

Applicable to members of the Cooperative in the rate classes listed above located on or adjacent to the lines of the Cooperative and suitable and adequate for receiving the service requested.

Members may subscribe to the number of blocks in which they would like to participate up to the average monthly usage of the account. Accounts will be limited to 83 blocks. Each block is currently estimated to provide an average of 43 kWh per month. This amount is not guaranteed.

MONTHLY RATE

The current monthly credit for solar generation output is **\$.050944** kWh. This value is subject to change, customarily on an annual basis effective January 1. This amount is based on Wabash Valley Power Association's effective On-Peak energy rate for the given year.

RATE ADJUSTMENT

The above rates are not subject to a Power Cost Adjustment Tracking Factor, in accordance with the Cooperative's policy and practices.

MEMBER AGREEMENT

Member's participating in the WVPA Co-op Solar Program agree to the terms and conditions as outlined in the Co-op Solar Member Agreement.

Approved by the Noble REMC Board of Directors on November 16, 2017 to be effective for January 1, 2018.

Wholesale Rate Revised January 1, 2021

Revised by the Noble REMC Board of Directors on January 21, 2021
